

## Conseil scolaire catholique Providence Schools Open Their Doors Virtually

Windsor, January 6, 2022 – On January 13, the elementary schools of Conseil scolaire catholique Providence (Csc Providence) will open their doors virtually to welcome their future students and families. This will be an opportunity for parents to visit our schools virtually and to learn more about their neighbourhood school from our staff.

Among other benefits, this information evening will provide a chance to discover all the advantages offered by the French-language Catholic education that is delivered in every Csc Providence school. In addition, this virtual visit will allow parents to learn more about their child's future school, to find out about curricula and extracurricular activities and to ask questions live via video conference.

#### **High-level and sustainable bilingualism**

All students attending French-language Catholic schools are truly bilingual at the end of their studies. Our schools provide a 100% francophone environment that allows students to consider future studies or employment in English or French, thanks to their mastery of bilingualism and the close ties they forge with the Franco-Ontarian community.

#### **Academic excellence at the forefront**

The program delivered by the Catholic schools of Csc Providence focuses on the success and supervision of each child and produces test results well above the provincial average. With a graduation rate of 93%, Csc Providence ranks first among all French and English school boards in Southwestern Ontario!

#### **Essential Catholic values**

We offer an education rooted in a Catholic vision of sharing, caring and openness to the world in order to develop in students a genuine respect for themselves, their surroundings and their neighbours. These are the values that drive all the Catholic schools of Csc Providence.

#### **À la carte programs**

A number of Csc Providence schools offer specialized programs, such as the Hockey Canada Skills Academy and the Specialist High Skills Major (SHSM) programs in business, health and wellness, manufacturing, sports, hospitality and tourism, transportation, agriculture, construction and information and communication technologies (ICT).
